Oh, when Karens take a walk with their dogs off leash in the famous Bramble in NY's Central Park, where it is clearly posted on signs that dogs MUST be leashed at all times, and someone like my brother (an avid birder) politely asks her to put her dog on the leash.

In case you're wondering if some people are willing to put the lives of others at risk by calling the cops on them, and lying about the threat. Imagine doing this KNOWING you are being recorded.

"When calling the cops, I'm going to make sure I tell them you're Black!"

Why? Because she knows how cops treats Black men in this country. Because she thinks the cops will come faster to save her. No different than the woman who recently killed her kid & said Black men did it.

This is horrifying. This woman should be charged with falsely reporting a crime.

Also Karen: \*proceeds to strangle her own dog while lying about this man

All jokes aside, this is literally why Emmitt Till and countless Black men have been killed. She should be charged with attempted murder.

Hello, Franklin Templeton. You employ the Amy Cooper in the video below, yes? See how she falsely called 911 to try to sic the NYPD on an innocent black man, all while abusing her dog. I wouldn't employ a racist like that.

Franklin Templeton! You employ the Amy Cooper in the video below! Are you sure you want a person that tries to weaponize the **#NYPD** and falsely call 911 on an innocent black man? All while abusing her dog. I wouldn't employ a racist, animal abuser like that. **#CentralPark #amycooper**

Amy Cooper is repugnant & it's grotesque that we all accept she's dangerous because she knows that cops could easily murder an innocent black man. So when calling for the cops to arrest Amy, let's remember the rot in the criminal justice system that was built into her threat.
